## CSF Linked Work Units

To assist you in organising an educational and enjoyable school camp, we have had a series of work units created that relate directly to the Beechworth Experience.

Students and staff of the Graduate School of Education of La Trobe University, have in conjunction with The Old Priory, designed work units providing pre-camp, in-camp and post camp activities and information.

An interesting range of activities, based around local resources and characters, has been created to suit upper primary to lower secondary levels. These adaptable units are directly linked to the Victorian Curriculum Standards Framework (1995) in the Key Learning Areas.

A broad range of topics is covered:

### 6 Main Units
